WOOLGATHERER PRODUCTS OEKO-TEX CERTIFIED

Montague, CA, September 29, 2016 – Woolgatherer Carding Mill is now OEKO-TEX Certified. This is a certification of textile products with the label “Confidence in textiles – Tested for harmful substances according to Oeko-Tex Standard 100.” This test is done at the Hohenstein Textile Testing Institute in Germany.

The most concise explanation of this program comes from the Hohenstein Institute:

“The OEKO-TEX Standard 100 is a globally consistent testing and certification system for raw, semi-finished, and finished textile products in every processing stage and for all accessory materials used in the process. The objective is to offer end consumer human-ecologically optimized, harmless products tested in line with the OEKO-TEX criterial catalogue, and to provide effective consumer health protection.”

If you would like more information about this topic, please contact Hank Kearns at:
